Letter of recommendation

The first time I met Mr Polakowski it was in 1999. He came to my shop and showed me photos of furniture he had renovated for his customers. I was so amazed that I decided to give him a piece of furniture (baroque) belonging to me. In due time I received it in a perfect condition. From that time we have often co-operated. Mr Polakowski always keeps to an agreement. I have never had problems with the negotiated price terms of delivery and quality of services.

I want to stress how unbelievable his work is because Mr Polakowski can reconstruct and set right broken, loose and dried up furniture

Whenever I have my furniture back I am astonished how professionally, solid and perfectly it's made with his own hands. I assure that as far as I am concerned I will always entrust renovation of furniture to Mr Polakowski. I can recommend him as a highly reliable person.
